How to use this template

Fill in this brief to plan your website. Keep the labels and template version unchanged. Examples are guidance only; enter your own answers in the response areas.

Word: replace each [Your answer] entry. Copy the full Page content and Section content records for more pages or sections. Copy optional product and photo records as needed.

PDF: type into the shaded fields and save a copy, or print and write. This PDF contains one of each record; use Word when you need additional records or more writing space.

Use stable IDs such as home and home-hero to connect pages and sections. Leave optional fields empty. Only include images you have permission to publish.

Document upload is not available yet. These templates prepare your content for the planned feature. Do not put passwords, payment details or private customer data in this brief.

Before sharing: review page IDs, button destinations, product prices, image permissions and public contact details. Remove unused records and save a copy.
