Rama Living

A complete website from one document

Download this Word or PDF example, then open Rama Studio > Brief > Upload completed template. Review the details and choose Create website from document.

Both formats create the same four pages: Home, Shop, Lookbook and About & Help. Six example products include photographs, prices and options. The lookbook includes nine credited CC0 photographs.

Photos are embedded here as previews. The website reads the direct HTTPS image links in the fields. Copies are hosted with Rama Studio, so it does not depend on the original photo sites loading.

This is a fictional showroom. Prices are illustrative. Room photographs provide inspiration and do not represent exact products for sale. Keep the PDF interactive when saving: printing to PDF removes its import fields.

Your business

Shared business details, appearance and navigation

Business name

Rama Living

What your business does

Thoughtful furniture for the rooms you live in. Explore comfortable seating, useful workspaces and simple storage.

Services or categories

Living room, Dining, Home office, Bedroom, Storage

Brand colours

Questions and answers

Can I pay here? | This fictional demonstration takes no payments.
How do I order? | Add products to a shopping list, then review the request. A real business can add its WhatsApp number in Studio tools.
Are these exact product photos? | No. These CC0 photos illustrate room ideas. Products and prices are examples.

Photo sources

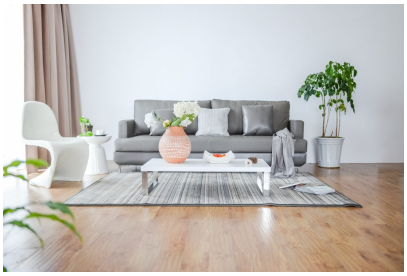

CC0 1.0 Universal - original creators and source pages

All nine images were checked against the source pages and CC0 licence on 29 October 2026. The two original Wikimedia images are included alongside furniture and room photographs from ISO Republic. Copies were resized and compressed for the example.
